BREAK THE SIEGE ON GAZA!

Open the fronts that the Arab bourgeoisies surrendered, from Lebanon, Syria, and Iraq!

Let's rise up in the West Bank against the collaborationist Palestinian Authority to fight alongside our siblings in Gaza!

Weapons for the resistance!

INTERNATIONAL REVOLUTIONARY GENERAL STRIKE!

The final attack on Gaza City has begun. Zionism is going for the "Greater Israel"...

The Arab bourgeoisies besieged Gaza and are complicit.

Iran put away its missiles. Hezbollah disarmed the masses in southern Lebanon.

The miserable Palestinian Authority violently cracked down thousands of young Palestinians who rose up to fight alongside Gaza in the West Bank.

Turkey's servant, Al-Jolani of Syria, handed over the south of that country and the Golan Heights, but not before the dog al-Assad gave the coordinates of Syria's heavy weapons arsenal to Zionism for it to destroy them.

The genocide of Trump and the fascist state of Israel cannot be stopped with "peace caravans" and boat rides, no matter how good the intentions are. That is not enough at all. That neither stop nor defeat Netanyahu's fascist offensive.

The Palestinian people in Gaza need fighters, weapons, and supplies to fight in decisive resistance battles...

PLO's collaborators with Zionism, seize their police stations and their weapons. From Jenin and Nablus, the entire West Bank must rise up. One single nation, one single enemy!

The people of Gaza need the masses in southern Lebanon to take up arms again, overriding the clerics who hold them... Open the fronts in Syria, over the head of Al-Jolani! Let the Iraqi and Yemeni people re-enter the fight!

Gaza needs an **international revolutionary strike** to attack the US transnational corporations, their oil wells, and their banks.

It's time.

Neither at the feet of the UN nor of the traitors of the Palestinian Authority and the cowardly Arab bourgeoisies.
